**T SERIES**

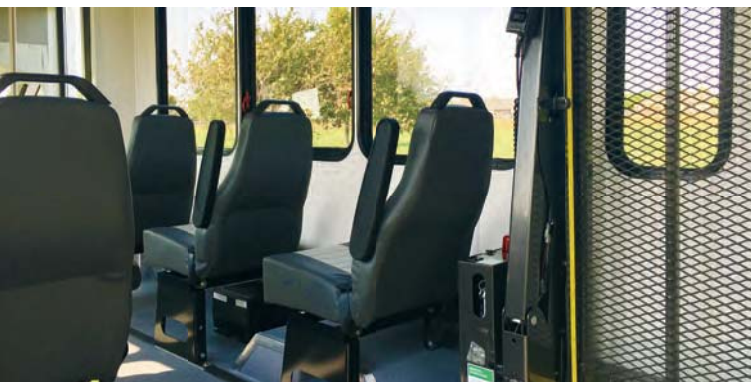

## SPECIFICATIONS

Precisely engineered to be lighter, stronger and safer. Built on the most impressive drive train available, the World Trans 21T and 23T give you greater efficiency with less fuel. Superior front-end visibility improves safety for drivers and up to 17\* passengers. The unique modular construction will create a quieter, durable, and more fuel efficient bus with less waste and in a fraction of the time - put together in a smart looking package.

### Driving Intelligence.

- Exclusive modular construction provides unparalleled flexibility, safety and style
- Large view-out window reduces blind-spots and enhances visibility
- Spacious interior with maximum window visibility enhance the passenger experience
- High-strength galvanized steel flooring, roof and walls provides superior durability and rust prevention
- Increased seating capacity and improved fuel efficiency are enabled by an incredibly strong and lightweight structure
- Fiberglass front and rear caps produce a clean, sleek and modern look
- Exceeds FMVSS220, FMVSS214, and 7 Year/200,000 mile Altoona durability requirements

\*Varies based on your state and the options selected. \*Photo shown with optional equipment.
